Subject: Re: Public Records Request

To: Karen Gray <kg@npri.org>

Good afternoon Karen:

Sorry for the delay, I was out sick for a while and have been inundated with media & public records requests, so I am still trying to catch up on my backlog of items.

Regarding your inquiry, there are no publications (brochure, how-to book) as requested. Based on the activities of your firm - the web site postings and your articles within the media, you are considered a quasi-media outlet. Media outlets are directed to make any inquiries through the Communications Office. Each public information specialist is assigned media, regions and schools and I have been assigned to be the point person in Communications for your inquiries.

Also, based on the history of litigation between your firm and the school district, please send any requests for information to me in writing and I will respond in the same manner.

Thank you.
