Chart excludes U.S. military academies. Universities are ranked by their education and general expenditures per FTE.

**Source:** The Education Trust, <http://www.collegeresults.org/default.htm> based on the Integrated Postsecondary Education Data System (IPEDS) <http://nces.ed.gov/ipeds/surveys/2006.asp>

**Instructional Expenditures / FTE:** “Instruction expenses” is a discrete reporting category. It includes expenditures for the colleges, schools, departments, and other instructional divisions of the institution and expenses for departmental research and public service that are not separately budgeted. It also includes general academic instruction, occupational and vocational instruction, community education, preparatory and adult basic education, and regular, special, and extension sessions. It also includes expenses for both credit and non-credit activities. It excludes expenses for academic administration where the primary function is administration (e.g., academic deans). Information technology expenses related to instructional activities if the institution separately budgets and expenses information technology resources are included (otherwise these expenses are included in “academic support”). (IPEDS)

**Educational and General Expenditures / FTE :** This is a broader category, which includes the instructional expenditures listed above, plus expenditures for research, public service, academic support, student services, institutional support, plant operation & maintenance, and scholarships. (IPEDS)

**Student and Related Expenditures / FTE:** This is an intermediate financial measure, including instructional, student services, and academic support expenditures. The specific formula was developed by the National Center for Higher Education Management Systems (NCHEMS). Student-related expenditures are calculated as  $(\text{Instruction} + \text{Student Services} + \text{Academic Support} * (\text{Instruction} / (\text{Instruction} + \text{Public Service} + \text{Research})))$ .
